

September 15, 2015

Dear DEFORM User:

DEFORM™ USER GROUP MEETING

Please join us November 3 & 4, 2015 for the next DEFORM User Group Meeting. We will be holding the UGM at our office, 2545 Farmers Drive, Suite 200, Columbus, Ohio, 43235, USA. For your information, enclosed are the preliminary agenda, UGM registration form and hotel information for this meeting.

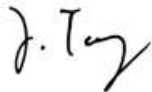

At the User Group Meeting (UGM), member companies have the opportunity to exchange their experiences in using the DEFORM system, and to express their present and future needs in a comfortable, *casual* setting. For the Q&A session, please list the subjects you'd like to discuss on your registration form.

At this meeting, we will also provide demonstrations and training workshops to better introduce new program features and applications. Please bring your laptop if you feel more comfortable in running these training sessions on your own computer.

We will have dinner on Tuesday evening, November 3rd. To confirm your reservation for dinner, please ✓ the "I / We plan to attend" box on your registration form and return to SFTC, or you can register on-line through the User's Area at www.deform.com.

Once again, we are looking forward to an informative and productive meeting. We welcome your suggestions for additional topics of interest for this or future meetings. Please contact us with your ideas.

Sincerely,

Juipeng Tang, Ph.D.
President
